

FEDERAL RESERVE BANK INCREASES RESOURCES

Rediscunts for Past Week Not So Large as Preceding Week.

CONSOLIDATED STATEMENT

Twelve Banks Making Up Federal Reserve System Report Enormous Resources—Federal Reserve Notes in Circulation.

While the rediscunts of the Federal Reserve Bank of Richmond were not so large last week as in the week preceding, the total resources of the institution increased nearly \$1,000,000. The report of the condition of the bank, as given out yesterday by Governor Seay, showed the gold reserve against all liabilities 80 per cent of the Federal notes in circulation, \$5,354,200. The total resources of the bank, \$24,588,829.74, and the rediscunts for the week, \$950,263.42.

The report follows:

Resources.
Gold, coin and bullion, \$1,143,000.00
Gold certificates, \$1,237,250.00
Gold settlement fund, \$2,585,000.00
Total gold reserve, \$5,354,250.00

Legal tender notes, silver certificates and gold certificates, \$13,500,000.00
Total reserve, \$18,854,250.00

Investments, \$9,317,836.00
Bills discounted, \$7,037,161.99
Due from other Federal Reserve banks, \$1,438,802.73
All other resources, \$156,620.85

Total resources, \$24,588,829.74

Liabilities.

Capital paid in, \$5,353,000.00
Reserve deposits, \$10,712,468.12
United States government deposits, \$5,000,000.00
Federal Reserve notes in circulation, \$5,354,200.00
All other liabilities, \$188,761.62

Total liabilities, \$24,588,829.74

Gold reserve against all liabilities, 80 per cent.

Cash reserve against all liabilities, 46 per cent.

Reserve for Federal Reserve notes outstanding, 96 per cent.

Federal Reserve Notes.

Issued, \$14,000,000.00
On hand, \$285,000.00
Outstanding, \$14,154,200.00
Gold with Federal Reserve agent, \$8,000,000.00
Net liability, \$5,354,200.00

Total amount of bills discounted for the week ended Friday, November 26, 1915.

\$950,263.42

CONSOLIDATED STATEMENT FOR ALL BANKS IN SYSTEM

Reserve deposits of the Federal Reserve banks increased nearly \$12,000,000 during the past week, according to statements of the banks, condition November 26, issued yesterday by the Federal Reserve Board in Washington, D. C.

Resources.

Gold coin and bullion, \$1,143,000.00
Gold settlement fund, \$2,585,000.00
Gold redemption fund with United States Treasury, \$1,237,250.00
Total gold reserve, \$5,354,250.00
Legal tender notes, silver certificates and gold certificates, \$13,500,000.00
Total reserve, \$18,854,250.00
Investments, \$9,317,836.00
Bills discounted, \$7,037,161.99
Due from other Federal Reserve banks, \$1,438,802.73

Miss Ellen McAdoo, Father and Mother

Here is a new photograph of Baby Ellen Wilson McAdoo and her father and mother. Her father is William McAdoo, the Secretary of the Treasury, and her mother was the former Miss Eleanor Wilson, the daughter of President Wilson.

The diary of energetic wensels in an overcrowded chicken-run, and the results, for each boat were tabulated something like a sporting score.

One came across a boat of price set in the flat official phraseology. For example, one man, who was describing some steps he was taking to remedy certain defects, interjected casually: "At this point I had to go under for a little, as a man in a boat was trying to catch my periscope with his hand."

No reference before or after to the said man or his fate.

Again, "Come across a show with a Turkish shipper. He seemed so miserable that I let him go."

And elsewhere in those waters a submarine was described as a "steamer full of Turkish passengers, some of whom, expecting their allies' treatment of non-combatants, promptly leaped overboard. Our boat sailed them out and returned them in safety."

In another affair, which included several ships (now at the bottom) and one submarine, the commander relaxes enough to note that:

"The men behaved very well under direct and flanking fire from a hide at about fifteen yards." This was not, I believe, the submarine that fought the Turkish cavalry on the beach.

And in addition to matters much more marvellous than any I have hinted, the reports dealt with repairs and shifts and contrivances carried through in the face of dangers that read like the last delirium of romance.

One boat went down the strait and found her self at the end of her tether, a mine had jammed under her forward diving plane.

STANDS ON HER HEAD AND JERKS BACKWARD

As far as I made out, she shook off by standing on her head and jerking backward, or it may have been, for the time has occurred more than once, she merely rose as much as she could when she could, and then "released it by having, as the official phrase goes, a 50-cent bottle of Dodson's Liver Tone."

And when a few months ago, could have invented, or having invented,

SEARCH IS CONDUCTED ON SCIENTIFIC PRINCIPLES

The search was conducted on scientific principles, while they sat on the silt and suffered. Then the commander heard the rasp of a wire trailer sweeping over his hull. It was not

ing him.

And since we are dealing in night-mares, here are two more—one genuine, the other, mercifully, false.

There was a British submarine, not only at, but in the mouth of a river—well home in German territory. She was spotted and went under. Her commander, perfectly aware that there was not more than five feet of water over her coming tower, so that even a torpedo-boat, let alone a destroyer, would hit if she came over. But nothing happened.

From School to Matrimony.

[Special to The Times-Dispatch.]

AMHERST, Va., November 27.—Taylor Foster, aged nineteen years, son of Mr. and Mrs. George W. Foster, and Miss Jennings, aged fifteen years, daughter of Mr. and Mrs. T. T. Jennings, eloped from the Naula school building, when Miss Jennings was attending school, and were married in Washington. Their youth was the only objection on the part of their parents.

Wireless Telephony to Go Round World

Secretary of Navy Daniels Makes This Prediction at Lotus Club Banquet.

NEW YORK, November 27.—Wireless telephony will soon extend around the world, Secretary of the Navy Daniels told guests at a banquet given at the Lotus Club to-night in honor of John J. Carthy, who recently has succeeded in extending the uses of the wireless telephone.

"We thought until recently that wireless telephony was the last of modern miracles that had to do with communication," said Secretary Daniels. "Recently the world was amazed when from Washington without wires, the human voice was heard in San Francisco. When fully perfected we may talk to our friends from Greenland's icy mountains to India's coral strand. The man whose genius is making this miracle possible is Mr. Carthy."

At the banquet table were telephones connecting with the wireless stations at San Francisco and elsewhere.

A nice sound, but there happened to be a couple of crumpled sheets aboard and he turned them both on to drown it. And in due time that boat got home with everybody's hair of just the same color as when they had started.

The other nightmare arose out of silence and imagination. A boat had gone to bed on the bottom in a spot where she might reasonably expect to be looked for, but it was a convenient jumping off, or up, place for the work in hand.

About that had hour of 2 A. M. the commander was waked by one of the men who whispered to him:

"They've got the chains on us, sir."

Whether it was pure nightmare, or an hallucination of long wakefulness, or something relaxing or releasing in that packed box of machinery, or the disgusting reality, the commander could not tell. It had all the makings of panic in it. So the loud and long training put it into his head to reply:

"Have they? Well, we shan't be coming up till 9 o'clock this morning. We'll see about it then. Turn out that light, please."

He did not sleep, but the dreamer and the others did; and when morning came and he gave the order to rise, she rose unhampered, and the commander said the gray-mannered seas from above once again. He said it was a very refreshing sight.

Lastly, which is on all fours with the canbule of the chase, a man was coming home, rather bored after an uneventful trip.

It was necessary for him to sit on the bottom awhile, and there he played patience.

Of a sudden it struck him, as a vow and an omen, that if he worked out the next game correctly, he would go up and strafe something. The cards fell all in order. He went up and found himself alongside a submarine, which, as he had promised and prophesied to himself, he destroyed.

She was a mine-layer, and needed only a jar to dissipate like a cracked electric light bulb. He was somewhat embarrassed by the contrast between the single-handed game fifty feet below, the ascent, the attack, the amazing result, and when he descended again his cards lay just as he had left them.

TWO ARRESTS MADE IN ALLEGED SWINDLE

Believed Du Pont Company Has Been Robbed of Big Sum Through Padded Pay Rolls.

[Special to The Times-Dispatch.]

HOPEWELL, Va., November 27.—Two employees of the Du Pont powder plant were arrested to-day by Detective E. L. Miroglio and arraigned before Justice Amistead, on the charge of having forged checks made payable to "dummies" on the Du Pont pay roll. The justice refused to disclose the names of the men involved on the ground that it might interfere with the investigation now being conducted. It was admitted, however, that the sum involved in the alleged swindle already has reached \$10,000. This is merely a beginning, it is said, and other arrests are expected to follow. Many stories and rumors are current to-night in the streets of Hopewell and further developments are eagerly awaited.

A man who gave his name as Guy Hefrick, a Du Pont employee, reported to the police to-night that while waiting for the 6 o'clock train to take him to Petersburg, he was robbed of his purse containing a Du Pont pay check for two weeks' work amounting to \$75.75. Mr. Hefrick is a carpenter in the construction department. All Hopewell and Petersburg banks have been notified to stop payment.
